

PRESCHOOL-KINDERGARTEN SUMMIT

FOSTERING CREATIVITY

AGENDA & CONFERENCE PROGRAM

February 13, 2018
Chicago Botanic Garden

PRESCHOOL-KINDERGARTEN SUMMIT

FOSTERING CREATIVITY

The objectives of the Preschool-Kindergarten Summit 2018 are to gather early childhood colleagues and educational leaders from Chicago's North Shore and nationally to:

- *discuss best practices, early childhood education trends, and emerging research that promotes optimal development for our youngest learners*
- *foster a common understanding of developmentally appropriate practice among preschool to kindergarten educators in area schools*
- *provide resources so individuals can advocate for appropriate approaches to early education*

THANK YOU TO THE SUMMIT UNDERWRITERS

Thank you for the generous support of the [Chicago Botanic Garden](#), [Glencoe District 35](#), [Kenilworth District 38](#), [North Shore School District 112](#), [Northern Suburban Special Education District \(NSSED\)](#), [Sunset Ridge School District 29](#), and [The Winnetka Public Schools District 36](#) for making this event possible.

We are also grateful to The Alliance's annual sponsors - [Center for Talent Development at Northwestern University](#), [Glencoe District 35](#), [Kenilworth District 38](#), [North Shore School District 112](#), [Northern Suburban Special Education District \(NSSED\)](#), [The Communication Research Registry \(CRR\) at Northwestern University](#), [Sunset Ridge School District 29](#), [Winnetka Park District](#), and [The Winnetka Public Schools District 36](#).

Thank you to [Community Playthings](#) for their generous donation of mini-unit block sets.

SUMMIT PLANNING COMMITTEE

Special thanks to the following individuals for assisting in the planning of the 2018 Preschool-Kindergarten Summit:

- Blakely Bundy, Defending the Early Years and The Alliance for Early Childhood
- Christy Crabtree, Northern Suburban Special Education District (NSSED)
- Debra Gaetano, Glencoe Junior Kindergarten and Nursery School, Glencoe
- Paige Goettel, The Alliance for Early Childhood
- Kathy Hardy, Winnetka Public School Nursery, Winnetka
- Kate Hughes, The Winnetka Public Schools District 36, Winnetka
- Trisha Kocanda, The Winnetka Public Schools District 36, Winnetka
- Kathryn Martin, The Alliance for Early Childhood
- Gina Mathews, The Alliance for Early Childhood
- Chelsey Maxwell, North Shore School District 112, Highland Park
- Tracey McDowell, Joseph Sears School, Kenilworth
- Maureen Chertow Miller, The Winnetka Public Schools District 36, Winnetka
- Eileen Prendergast, Chicago Botanic Garden, Glencoe
- Liza Sullivan, The Alliance for Early Childhood

AGENDA

8:30-8:45am Regenstein Center	Check-In and Registration
8:45-9:00am Alsdorf Auditorium, Regenstein Center	Welcome and Overview of the Day <ul style="list-style-type: none"> • Liza Sullivan, Executive Director, The Alliance for Early Childhood • Julie Pfeffer, Principal, Crow Island School, Winnetka
9:00-10:00am Alsdorf Auditorium, Regenstein Center	Keynote Address Engagement First: Pathways to Intrinsically Motivated Learning , Gever Tulley
10:15-11:15am	Concurrent Breakout Sessions (<i>choose one session</i>) <ul style="list-style-type: none"> • Art is a Verb, Kathy Hardy (<i>Linnaeus Room, Regenstein Center</i>) • Introduction to the Froebel Gifts and Occupations, Stacey Wellman (<i>Pullman Room, Regenstein Center</i>) • Keynote Extension, Gever Tulley (<i>Burnstein Hall, Regenstein Center</i>)
10:15am-12:30pm Classroom 12 Learning Center	Double Session <ul style="list-style-type: none"> • Block Building Basics I: Creating A Block Area • Block Building Basics 2: Sustained, Daily Block Building, Rebecca Burdett
11:30am-12:30pm	Concurrent Breakout Sessions (<i>choose one session</i>) <ul style="list-style-type: none"> • Fostering Creativity Through Play-Based Experiential Learning, Joan Almon (<i>Linnaeus Room, Regenstein Center</i>) • Introduction to the Froebel Gifts and Occupations, Stacey Wellman (<i>Pullman Room, Regenstein Center</i>) • Introduction to the Reggio Emilia Approach to Early Learning, Karen Haigh (<i>Alsdorf Auditorium, Regenstein Center</i>) • Moving Toward Meaning: The Elegance and Power of Integrating Physical Literacy and Choreography into Studies with Children, Donna Mandel (<i>Classroom 1, Learning Center</i>)
12:30-1:20pm Burnstein Hall, Regenstein Center	Lunch and Networking Enjoy this informal time to eat lunch and build your professional networks.
1:20-2:20pm	Concurrent Breakout Sessions (<i>choose one session</i>) <ul style="list-style-type: none"> • Extended Block Play: Community Block Projects, Rebecca Burdett (<i>Classroom 12, Learning Center</i>) • Fostering Creativity Through Play-Based Experiential Learning, Joan Almon (<i>Linnaeus Room, Regenstein Center</i>) • Froebel Gifts: Creativity and Play as the Engine for Deep Learning, Stacey Wellman (<i>Pullman Room, Regenstein Center</i>) • Looking at the Reggio Approach and its Connections to Creativity, Karen Haigh (<i>Alsdorf Auditorium, Regenstein Center</i>) • Moving Toward Meaning: The Elegance and Power of Integrating Physical Literacy and Choreography into Studies with Children, Donna Mandel (<i>Classroom 1, Learning Center</i>)
2:35-3:15pm Alsdorf Auditorium, Regenstein Center	Conference Wrap-Up: Bringing It All Together
3:15pm Alsdorf Auditorium, Regenstein Center	Evaluation Completion Visit: https://tinyurl.com/prek2018
3:15pm Krehbiel Gallery, Regenstein Center	Tour the new Chicago Botanic Garden Nature Preschool & Regenstein Learning Campus Meet in the Krehbiel Gallery, Regenstein Center and walk to the Regenstein Learning Campus. Tour the CBG's new Nature Preschool, Nature Play Garden, and Regenstein Learning Campus.

KEYNOTE ADDRESS

ENGAGEMENT FIRST: PATHWAYS TO INTRINSICALLY MOTIVATED LEARNING.

Looking back at 12 years of experiments in creating highly engaging learning experiences, Gever Tulley will share his infectious optimism and some new ideas that may pave the way to more engaged students.

Facilitated by: Gever Tulley

Gever Tulley is an author, speaker, and computer scientist. In 2005, he founded the [Tinkering School](#), afterschool and summer programs involving the use of real tools, materials, and problems to encourage students' love of learning, curiosity about the world, tenacity to think big, and persistence to do amazing things. Most recently in 2011, Gever created [Brightworks](#), a K-12 private school in San Francisco where students explore an idea from multiple perspectives with the help of real-world experts, tools, and experiences; collaborate on projects driven by their curiosity; and share their findings with the world. Rather than tests, grades, and homework, Brightworks supports students as they create a detailed portfolio of their work.

Gever is also the author of [Fifty Dangerous Things \(You Should Let Your Children Do\)](#), an activity book for children and parents to use for exploring the world around them, and [Dangerism! Why We Worry About the Wrong Things and What It's Doing to Our Kids](#). For more information, visit gevertulley.com.

KEYNOTE EXTENSION

Participants will work together to design, build, and problem solve a unique project using tools and materials. The workshop will begin with an introduction to the tools and materials and basic skills to build simple mechanisms from wire. The project is a surprise, but you can count on learning new skills, making mistakes, and trying harder than usual!

This session will be held from 10:15-11:15am in the Burnstein Hall, Regenstein Center.

OVERVIEW OF BREAKOUT SESSIONS

- **ART IS A VERB**

Art is a verb. Young children are very active. They engage in everything with great enthusiasm, but show little desire to produce a product. The focus of this session is how to provide experiences that enable exploration of various media with freedom.

This session will be held from 10:15-11:15am in the Linnaeus Room, Regenstein Center.

Facilitated by: Kathy Hardy

Kathy Hardy has worked in the field of early childhood for over 30 years, holding positions as director, preschool teacher, elementary teacher, college instructor, mentor and trainer, studio teacher, specializing in documentation of children's work, environments for children, families and staff and the creative arts. Kathy is currently the art studio teacher at Winnetka Public School Nursery. She has been an active participant in the McCormick Center for Early Childhood Leadership, mentoring directors from all over the United States and serving on the Advisory Board. She is a frequent presenter at the Leadership Connection Conference, the NAEYC Annual Conference, and at early care and early childhood centers in the Chicago area. Kathy acted as the art therapist for Chicago Easter Seals, a program serving low income and special needs children. She serves on the Board of the Alliance for Early Childhood and the McCormick Center for Early Childhood Leadership. Kathy holds a Master's degree in early childhood administration and curriculum from National-Louis University and an Illinois Director Credential.

Kathy has visited the schools in Reggio Emilia twice in the past 5 years. Once, as part of a five state administrative tour, representing Illinois and the second time in a focus group on the role of art in children's lives and society. She brings her creative outlook into all she does and inspires us to see the extraordinary in everything ordinary.

- **BLOCK BUILDING BASICS I & 2 (DOUBLE SESSION):**

- **CREATING A BLOCK AREA**

You have the blocks, and a space for building...now what? Are you making the most of this critical area in your classroom? In this workshop, participants will discuss how to organize the block area, shelve and arrange blocks to maximize their mathematical properties, select appropriate accessories, and set up simple guidelines from Day 1 that ensure a positive, creative experience for all children. We'll troubleshoot challenging block problems such as too little space, too few blocks, and effective cleanup routines.

- **SUSTAINED, DAILY BLOCK BUILDING**

Did you ever notice that a few children seem to always end up in (and take over) the block area, while other children within your class seem to shy away? In this workshop, we will learn how sustained, week-long experiences in the block area can provide *all* children with a framework for making the most from block play. We will consider a child's week in the block area as a mirror for the writing process, where children draft, edit, revise, and ultimately, publish their buildings!

Block Building Basics I & 2 is a double session held from 10:15am-12:30pm in Classroom 12, Learning Center.

- **EXTENDED BLOCK PLAY: COMMUNITY BLOCK PROJECTS**

After months of individual block building experiences in the block area, preschoolers and kindergarteners are ready to use this dynamic space as a studio for sharing all they know about a valued curricular topic. We will examine the case studies of two very different class block projects: "Bird Town" and "Life in the Longhouse," each of which emerged as extended, six-week interdisciplinary studies in the block area, involving every child in the classroom community. Using table blocks, natural materials and simple found objects, we'll give a try to community building ourselves!

This session will be held from 1:20-2:20pm in Classroom 12, Learning Center.

Facilitated by: Rebecca Burdett

Rebecca Burdett (Bank Street College of Education, Studies in Education, '99) has been an early childhood educator for 34 years, working in both public and private schools in New York's Hudson Valley. She currently teaches Kindergarten in the New Paltz Central School District, in Upstate New York, and is a Teaching Consultant for the Hudson Valley Writing Project, a local site of the National Writing Project, where she presents on topics such as emergent literacy, block play and place-based nature studies for young children. Her chapter, "They Thanked the Bear; Then They Ate the Bear: An Integrated Block-Based Curriculum," appears in the book *Teaching Kindergarten: Learner Centered Classrooms for the 21st Century*.

- **FOSTERING CREATIVITY THROUGH PLAY-BASED EXPERIENTIAL LEARNING (PBEL)**

Young children overflow with creativity and curiosity which they use to discover themselves and make sense of the world around them. This process is enhanced through play-based experiential approaches in preschool and kindergarten. Unfortunately, the pressure to meet today's academic standards often result in a loss of playful learning and creativity. Yet, slowly, parents, educators, and policy makers are again realizing that a hands-on, play-based approach to early education strengthens children's healthy development, their creativity and zest for learning, and are advocating for its return.

This session will be held from 11:30am-12:30pm and 1:20-2:20pm in the Linnaeus Room, Regenstein Center.

Facilitated by: Joan Almon

Joan Almon was a Waldorf early childhood educator for over thirty years and then co-founded the U. S. Alliance for Childhood out of a deep concern for the decline in children's health and well-being. She is known for her work to restore play to children's lives in early education, in school settings, and in communities. Her most recent publication is *Playing It Up - With Loose Parts, Playpods, and Adventure Playgrounds* (available online at allianceforchildhood.org.)

- **FROEBEL GIFTS: CREATIVITY AND PLAY AS THE ENGINE FOR DEEP LEARNING**

Today, Froebel reminds both parents and educators that learning through the senses, relationship development and connectedness to the environment need to remain at the forefront of 21st century thinking when designing educational experiences that develop the intellect, creativity, sociability, and morality of a child. Froebel intuitively knew that children construct knowledge through visual, spatial, and tactile feedback. He designed instructional practices and experiences that moved away from direct teaching and centered on the sensory-rich experiences of play. He created his own educational toys, the Gifts, to represent and connect children to the basic geometric forms of nature. The purpose of this workshop is to allow participants to dive deeply into Gift

Play. Hands-on exploration activities will be provided that allow participants to develop a stronger understanding of the concepts and skills taught through the Froebel Gifts. Examples will be provided regarding how the Gifts can be implemented into the modern-day classroom.

This session will be held from 1:20-2:20pm in the Pullman Room, Regenstein Center.

- **INTRODUCTION TO THE FROEBEL GIFTS AND OCCUPATIONS**

Friedrich Froebel recognized that every child has his or her own inner structure. He felt it was of primary importance to enable children to draw their own conclusions rather than be provided with answers. He disliked elaborate toys that discouraged creativity and discovery, believing that less was more. To create a life-long learner, he knew that children needed experiences that stimulated the senses, challenged the mind, and nourished the soul. The Froebel Gifts and Occupations are elegantly simple but allow for a profoundly deep exploration of spatial reasoning, analytical thinking, and creative design. The Gifts are modular, logical, and multi-functional. They are intended to be explored and experienced, allowing children to be open, creative, self-activated learners. The Occupations are the complement to the Gifts, building underlying neurodevelopmental processes necessary for higher thinking and learning. While the Froebel Gifts and Occupations were initially intended for young children, they continue to challenge the minds of all ages of learners. The purpose of this workshop is to introduce Friedrich Froebel's educational philosophy, as well as give an overview and introduction to the Froebel Gifts and Occupations. Hands-on activities will be provided that enable participants to develop a beginning understanding of the materials.

This session will be held from 10:15-11:15am and 11:30am-12:30pm in the Pullman Room, Regenstein Center.

Facilitated by: Stacey Wellman

Stacey Wellman is a graduate of Northwestern University. She completed her undergraduate and graduate degrees from the institution. Stacey has been a speech-language pathologist in the Winnetka Public Schools for over twenty years. Outside of the public school, she runs a Roots and Shoots program and travels internationally with students, believing that learning must extend beyond the classroom and into nature.

- **INTRODUCTION TO THE REGGIO EMILIA APPROACH TO EARLY LEARNING**

This session will review some of the history of the Reggio Emilia Approach to early learning, the principles of the approach along with images of the practice in Italy and some images of adaptations in the U.S.

This session will be held from 11:30am-12:30pm in the Alsdorf Auditorium, Regenstein Center.

- **LOOKING AT THE REGGIO APPROACH AND ITS CONNECTIONS TO CREATIVITY**

This session will discuss definitions and values of creativity. Then, participants will view images of children's work or experiences in order to note creativity and how it was supported and provoked through relationships with adults, children, and the environment.

This session will be held from 1:20-2:20pm in the Alsdorf Auditorium, Regenstein Center.

Facilitated by: Karen M. Haigh

Karen M. Haigh, Ph.D., is currently an early education consultant. She is a former Associate Professor in the Early Childhood Education Department of Columbia College, Chicago. While there, her areas of interest included Reggio-inspired principles and practices in an American context, with a particular focus on the classroom environment, the role of materials and languages, documentation, listening and observing in order to develop emergent curriculum, parent partnerships, collaboration, and professional development. She continues to study action research, professional development, and emergent curriculum development within her current projects involving public and private schools and community based organizations.

Dr. Haigh has co-authored, *We Are All Explorers: Learning and Teaching with Reggio Principles in Urban Settings*. She has also contributed chapters/sections for books: *Insights and Inspirations*, *Next Steps Towards the Reggio Way* and *First Steps Towards the Reggio Way*. These works relate to her past position and experiences as administrator at Chicago Commons, which had focused heavily on the Reggio Approach. Additionally, she has written articles for *Theory into Practice*, *Child Care Information Exchange*, and *Innovations in Early Education*.

Dr. Haigh has worked as a teacher of young children, an education coordinator, and a program administrator within Chicago-area social service organizations. Additionally, she has worked as director of professional development for the Chicago Public Schools Early Childhood Education Department.

- **MOVING TOWARD MEANING: THE ELEGANCE AND POWER OF INTEGRATING PHYSICAL LITERACY AND CHOREOGRAPHY INTO STUDIES WITH CHILDREN**

Children want to move. Teachers can harness this passion and use it to help children explore ideas, construct meaning and communicate. Situating children’s movement studies in both theory and practice, we will look at the why and how of taking this most fundamental human language into full expression, both on its own, and in tandem with other languages and literacies. Participants will have an opportunity for a hands-on experience investigating elements of space, time, and energetic quality in movement, and to see examples of children applying these elements as they choreograph and perform. Studies integrating movement with science, art, literature and math will be presented along with structures for eliciting focused movement exploration, body and spatial awareness, and the development of dialogue through and among these shared and complimentary languages.

This session will be held from 11:30am-12:30pm and 1:20-2:20pm in Classroom 1, Learning Center.

Facilitated by: Donna Mandel

Donna Mandel has served as a dance consultant in Chicago area schools for many years under the auspices of numerous venues, including the School of the Art Institute of Chicago, Chicago Arts Partnership in Education, Erikson Institute, Hubbard Street Dance Chicago, and Chicago and Winnetka Public Schools. She is currently a Nursery Lead Teacher at the University of Chicago Laboratory Schools. Her work as a choreographer and artistic co-director of Fluid Measure Performance Company, known for “setting the standard in Chicago for intrepid exploration of the territory between dance and language”(Chicago Reader), has been influential in her development of arts-infused curricula for the classroom.

PLAN YOUR DAY

Breakout Session Registration

Prior to the Summit, we recommend that you use [Sched](#) to register for the breakout sessions you'd like to attend (see directions below). Some rooms have capacity restrictions, so only those who have pre-registered can be accommodated.

Please note, if you pre-registered using Sched, on the evening before the Summit, you will receive an email outlining your personal event agenda. You can also follow the instructions below to access your schedule.

1. Go to <https://2018annualprekindergartensummit.sched.com/>
2. Log in with your email address
3. Simply click on the sessions you want to attend
4. Click your Profile (your head or initials, top right)
5. Choose "My Sched" to save your schedule by taking a screenshot, printing or emailing it to yourself.

Block Building with Rebecca Burdett (Rm 12)

SUMMIT RESOURCES

Please visit The Alliance's [Preschool-Kindergarten Summit webpage](http://www.theallianceforec.org/preschoolsummit.php) for links to resources submitted by each facilitator: <http://www.theallianceforec.org/preschoolsummit.php>. Additionally, following the Summit, videos of the keynote address and breakout sessions will be posted to [The Alliance's You Tube Channel](https://tinyurl.com/AllianceECVideo). Visit <https://tinyurl.com/AllianceECVideo>.

PROFESSIONAL DEVELOPMENT HOURS

Gateways to Opportunity. This event is Gateways to Opportunity Registry Verified and is able to award a Certificate of Completion for 4 Professional Development Hours, if individuals participate in all sessions. To receive your certificate, please: 1) return your Conference Session Information Form, and 2) complete the required online event evaluation at <https://tinyurl.com/prek2018>. Upon submittal of the online evaluation, the Gateways Certificate of Completion will be emailed to you.

ISBE Continuing Professional Development. This event is ISBE verified and is able to award 5.5 hours of Professional Development Hours, if individuals participate in all sessions. To receive the Evidence of Completion, please complete the required online ISBE evaluation at <https://tinyurl.com/prek2018>. Upon submittal of the online evaluation, the Evidence of Completion Form will be emailed to you.

SUMMIT EVALUATIONS

At the end of the conference, you will be asked to complete a short, online evaluation form.

Please note:

- To receive a Gateways Certificate of Completion, you must: 1) return your Conference Session Information Form, and 2) complete the required event evaluation at <https://tinyurl.com/prek2018>. Upon submittal of the online evaluation, the certificate will be emailed to you within 24-48 hours.
- To receive the ISBE Evidence of Completion Form, you must first complete the required ISBE evaluation at <https://tinyurl.com/prek2018>. Upon submittal of the online evaluation, the Evidence of Completion Form will be emailed to you within 24-48 hours. Thank you for your input which provides valuable feedback!

ABOUT THE ALLIANCE

The Alliance for Early Childhood is a community collaboration organization, primarily serving Winnetka, Kenilworth, Northfield, Wilmette, Glencoe, and other communities on the North Shore. Our mission is to promote the healthy growth and development of children from birth to age eight by providing resources, programs, and support for parents, families, and early childhood professionals. Our membership consists of 59 schools and organizations, reaching over 10,000 children, parents, and educators annually. To accomplish our mission, each year The Alliance offers:

- advocacy on behalf of young children, both locally and nationally
- American Red Cross Babysitting classes for junior high students
- information on best practices in early childhood through a comprehensive website, social media, and our sixteen-page, biannual *Early Childhood* newsletter
- *Let's Play* family programs which provide children opportunities for unstructured, creative, child-directed play
- parent education opportunities, led by nationally respected researchers, authors, and early childhood leaders
- preschool surveys, conducted biennially, to share information about salaries, benefits, registration procedures, and other pertinent information among area schools
- professional development workshops and networking events for local early childhood educators
- ScreenBreak, an annual week held each March, to encourage families to turn off or reduce their use of technology and media and, instead, to pursue alternative activities
- Special Needs Roundtable which provides programming and support for parents and teachers of children with special needs
- Teacher Tributes to recognize and promote professional excellence
- Transition to kindergarten events to support positive transitions for students from preschool into kindergarten

UPCOMING ALLIANCE EVENTS

- **24th Annual ScreenBreak.** Sunday, March 4 – Saturday, March 10. *Children and their families are encouraged to turn off their televisions and other screens for a week, and enjoy alternative activities at home or at events coordinated throughout the community.*
- **ScreenBreak Kick-Off Event.** Sunday, March 4, 3:30pm, Washburne School Gym, Winnetka. *The Sky Squad acrobatic basketball dunk team is coming to Winnetka! This high energy team will thrill all ages with their dazzling acrobatic flips, twists, and dunks from mini trampolines. Bring your entire family to this spectacular kick-off to ScreenBreak Week! For more information or to purchase tickets, visit <http://screenbreak.weebly.com/kick-off-event.html>.*
- **Integrating the Challenging Child: Early Childhood Directors Enrichment Series Workshop.** Wednesday, March 7, 4-5:30pm. *Early Childhood directors and teachers of The Alliance's member schools learn behavior management techniques that foster cooperation, practical techniques and scripts that motivate students to behave appropriately; and discipline as an opportunity to teach the appropriate behavior.*
- **Let's Play Community Play Days.** *Families come together to discover new area parks and promote the importance of children's unstructured play.* April 28, 9:30-11:30am and June 4, 9:30-11:30am.
- **Wild Play: Parenting Adventures in the Great Outdoors.** Tuesday, May 1, 7-8:30pm. Washburne School Little Theater, Winnetka. *Research shows that spending time in nature enhances physical, cognitive, emotional, and social growth. Learn from David Sobel, noted environmental educator, about ways to bring your child the joys of the natural world and why it is critical to healthy development. Building on his own experiences as a parent, as well as integrating his gift for storytelling and depth of understanding of developmental theory, Sobel will illustrate easy, concrete, and age-appropriate ways that you can enhance your children's connection with the natural world just outside your door.*
- **5th Annual Inspiring Nature Play Conference: Innovations.** Wednesday, May 2, 9am-3:30pm. Chicago Botanic Garden, Glencoe. *Join this professional development event featuring keynote speaker, David Sobel. Come away with practical and effective ideas for incorporating nature play into your early childhood programs and curriculum. Presented in partnership with the Chicago Botanic Garden.*

Look for additional information and events at www.TheAllianceForEC.org and Facebook!
